SUBJ: Light-Weight Case for Flyaway Light Table

1. On the basis of our evaluation of the [REDACTED] light table, designed for field use, we have ordered 20 of these units. As you know this table was designed to be packed in water proof shipping containers which we have available.

2. In our continuing evaluation of the prototype models we have determined a need for a light weight suitcase type carrying case which would make this light table easily transportable by hand-carrying.

3. It is requested that the Plans & Development staff take the necessary actions to develop a prototype suitcase type carrying case lined with polyethylene foam formed to accept the light table and reel brackets. Please direct questions regarding this request to [REDACTED] IAD/OSS extension 3156.

The Development Branch, P&DS has set up a project to develop the requested prototype. [REDACTED] will be in charge and will maintain close liaison with [REDACTED]

*Paul* Ed already has a project for this (#998055), but it is already listed as being in Phase III proj. status. I don't understand. I point this one to you.
